

# Technical Data Sheet

### Description

DSL Power Steering Fluid is a high quality fluid engineered with state-of-the-art additives that provide outstanding protection in power steering systems.

### Features

- \* Protects against rust, corrosion and wear
- \* Controlled seal swelling properties
- \* Protects rubber hoses
- \* Stops power steering squeaks
- \* Reduces oxidation

### Application

Ideal for use in the hydraulic power steering systems of American and imported vehicles.

- \* GM 9985010
- \* Chrysler MS 5931F
- \* Ford M2C128D
- \* Imports

### Properties

## Typical Specifications

<b>Product Code</b>	<b><u>SL769</u></b>
Gravity, ° API	29.5
Viscosity	
cST @ 40°C	40.0
cST @ 100°C	7.94
cP, @ -40°C	23900
Viscosity Index	178
Flash Point, (COC) °F	363
Pour Point, (COC) °F	-46
